Continuation of 11. does NOT place the application in condition for allowance because: Applicant arguments is not persuasive, and the cited prior arts still reads on claims 1-7 and 13-34, Applicant arguments on page 4, second paragraph of Applicant's remarks, Applicant argues that the single entity constructed according to claim 1, of the present applicantion is not coded as an integer using an arithmetic coder wherein the values of the transformed coefficients are coded in any fixed order. Examiner respectfully disagrees, the arithmetic coder is used for the values of the transform coefficients which are coded in any fixed order, and single entity is coded as an integer.
